

EFG Nova

LIGHT UP THE OFFICE WITH A FAMILY OF CHAIRS THAT BOTH STAND OUT AND BLEND IN.

It's time to put our family of stylish and flexible chairs in the limelight. EFG Nova has an inviting and clean design that effortlessly holds the office together. With the new activity based ways of working our seating requirements have never been more inconsistent, constantly adapting to where, when and how we meet. As with all of our furniture, EFG Nova is built to comply with our two core notions - simplicity and flexibility. This is a series of chairs that can be placed anywhere conversation and cooperation are in focus. The possibilities to create a personal, custom-made expression are virtually endless.

PUTTING SIMPLICITY AND FLEXIBILITY IN THE LIMELIGHT

six different frames
94 different ^{hangable} standard fabrics
twelve different seat shells
stackable

THE DETAILS IN FOCUS

The stylish, metal armrests enhance the chair's simple and functional design.

The shaped back is an evolution of our most reliable and popular chairs providing both excellent lower back support and seat comfort.

The rubber armrest makes the chair easy to hang on the table during cleaning.

In order to stay functional on uneven surfaces all four legged models are fitted with leg bases that are self adjusting and can be angled.
